

# The Changing Arctic and sub-Arctic Marine Environment: Proxy and Model Based Reconstructions

**Date** February 4 – 6, 2014  
**Venue** University of Bordeaux, Talence, France

## Session Themes

- *Developing Paleoceanographic Proxies: Qualitative Versus Quantitative Reconstructions*
- *Interglacial Paleoceanography from the Northern North Atlantic and Arctic Ocean*
- *Ocean – Continent Linkages during Interglacial Periods*
- *The Past 2000 years*

### Scientific committee

**John Andrews**  
*INSTAAR, USA*

**Simon Belt**  
*University of Plymouth, UK*

**Jacques Giraudeau**  
*EPOC CNRS/UB1, France*

**Morten Hald**  
*University of Tromsø, Norway*

**Katrine Husum**  
*University of Tromsø, Norway*

**Jochen Knies**  
*NGU, Norway*

**Hans Renssen**  
*VU Amsterdam, Netherland*

**Robert Spielhagen**  
*GEOMAR, Germany*

### Keynote speakers

**Henning Bauch**  
*GEOMAR, Germany*

**Jean-Claude Gascard**  
*LOCEAN, France*

**Morten Hald**  
*University of Tromsø, Norway*

**Johann Jungclaus**  
*MPI, Germany*

**Ruediger Stein**  
*AWI, Germany*

**July 2013** Opening of abstract submission and registration

**November 15, 2013** Deadline for early registration and for abstract submission

**December 2013** Final programme

**Organized by EPOC CNRS/UB1**
